

MAN & MACHINE presents

Really Cool Touch LP

Medical keyboard with
integrated Touchpad

The medical Really Cool Touch Low Profile keyboard integrates all data input facilities you may require in the most accommodating footprint.

Featuring flatter keys optimized for easy-wipe cleaning and usability, it is our most innovative all-in-one solution. The hygienic white keyboard combines a keypad, touchpad and numeric pad in one fully and seamlessly sealed body that is only 38 cm wide and 15 cm deep.

It is long term resistant to cleaning with surface disinfectants, such as alcohol and thanks to its Tru Lock locking mechanism, it can be locked during cleaning, eliminating the need to log out or disconnect. If required it may be fully submerged for a more thorough disinfection.

7 Requirements for a Medical Grade Keyboard

- Fully sealed
- Disinfectable
- Hygienic white
- Lockable
- Easy to use
- Electrically safe
- No drop hazard

Drop safe and EN60601 certified, this input device is fit for purpose!
